25	26	27	28	29	30  Pay Day	31

Security Awareness Tip of the Month

What day goes by that your life doesn't rely on computers and the Internet? Communications (e-mail, cell phones), entertainment (digital cable, MP3s), transportation (car engine systems, airplane navigation), shopping (online stores, credit cards), medical (equipment, medical records), and the list goes on. Consider how much of your personal information is stored either on your own computer or on someone else's system

Cyber security involves protecting that information by preventing, detecting, and responding to attacks.

Recognize the risks and become familiar with ways to protect your information. ADOA's Security Awareness Program can help.
